Oobleck!

What is Oobleck

- Oobleck is: a goo made from cornstarch and water. It can't decide if it wants to be a liquid or a solid!

Discuss!

Name some things that are liquids and solids in your daily life!

What is Oobleck

- If you poke it gently, it feels soft and gooey, like slime. But if you hit it, squeeze it, or punch it quickly, it becomes hard like a rock for a moment

How to make it!

1. In a bowl, measure 2/8 cups of water
2. Then add your favorite color of food coloring
3. Then measure ½ cup of cornstarch
4. Slowly add the cornstarch in the water and observe changes
5. Mix for minutes until its a smooth texture or you cannot anymore
